

# The DCS Cleaning for Health™ Program

## Offers a proactive plan

### Which provides another level of defense for your facility

Influenza is easily spread from person-to-person by coughing, sneezing and touching contaminated surfaces.

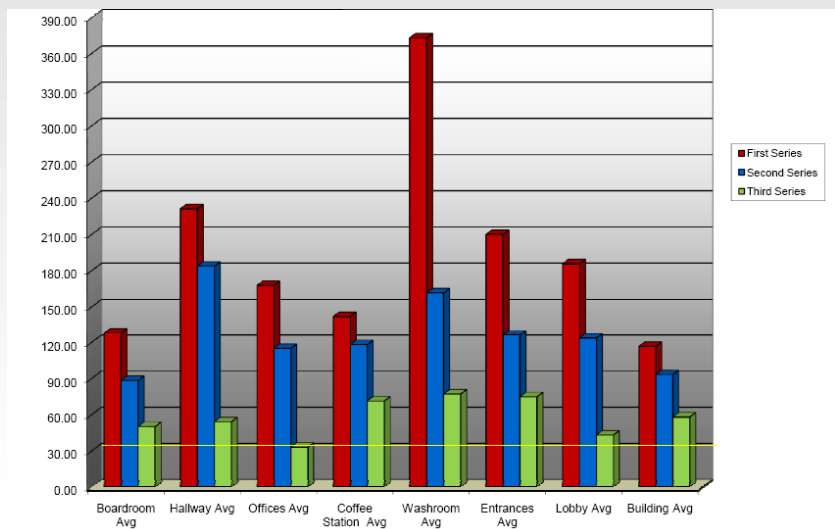

Influenza is a virus which can survive 24 – 48 hours on hard, porous surfaces.

The DCS Cleaning for Health™ program offers:

- ✓ Enhanced due diligence for your property
- ✓ An effective program to improve our existing pandemic plan
- ✓ Rapid remedial solutions

To receive a online DCS Clean for Health™ proposal simply hit reply to this email or send a separate request to:
