

**DCS** Global Enterprise

## DAYLIGHT CLEANING PROGRAMS

DCS is the North American pioneer and leading transition service for day cleaning in commercial office space. We have converted over 35 million square feet of office space with a specialty in multi-tenant buildings, with no clients reverting back to a night cleaning program.

### Day Cleaning Benefits

- Energy savings (3 to 8% of kilowatt hours)
- Janitorial contract savings in most markets
- Improved tenant relations
- Greener building operations (LEED point available)
- Improved corporate and social responsibility profile
- Increased customer service

DCS works with your service provider and acts as your project manager throughout the conversion process. We offer two types of transition service packages.

### Comprehensive Transition Service

1. Tenant / building user presentations
2. Cleaning contract adjustment
3. Building information communications
4. Service provider training
5. On-site launch services
6. Scorecards / performance audits

### Basic Transition Service

1. Tenant / building user presentations
2. Cleaner training
3. On-site launch services

*The above items constitute the minimum service package. Additional services available separately.*
